## Cupola Restoration

Dear Parishioners of Divine Infant:

I am pleased to advise you that restoration work on the church cupola is scheduled to begin this Monday morning, April 8th, and will likely take a few work weeks to complete (minimum of two weeks). This is a major project and will cause dislocation to our liturgical celebrations and ministry activities. Work will be occurring simultaneously on the exterior and interior of the cupola before turning to repair work on the interior of the Church. The sanctuary area will be surrounded by scaffolding and protective overhead coverings.

Integricon Property Restoration and Construction Group Inc. has been contracted by Catholic Mutual Canada to do the repair and restoration work for the parish. Integricon has confirmed they expect to arrive mid- morning on April 8th, with the scaffolding set-up to take some time.

During the work week, daily Mass will be celebrated in the parish hall while confessions will continue to be heard in the Church. The vestry will remain in use.

There will be no work done on weekends, so Sunday Masses and confessions will be celebrated in the main church (some adjustments around setting up of the main sanctuary might be necessary).

I realize this may cause some inconvenience but I am sure you will agree with me that this is a long awaited opportunity to strengthen our Church structure, in particular, to prevent our sanctuary windows and ceilings from any future water penetration and related damage.

Thank you for your understanding and patience.

Sincerely, in Christ,

A handwritten signature in black ink that reads "Fr. Waldemar".
